David Ames, Photographer, June and July 1989

PA-5502-1 PERSPECTIVE OF SOUTHEAST FRONT AND NORTHWEST SIDE LOOKING WEST

Photogrammetric photographs by John A. Burns and David Ames, July 10, 1989.

All photographs were shot with a Rolleimetric 6006 semi-metric camera fitted with a 50mm lens and riseau screen number 85. The focus was locked at eight meters. The film used was Kodak T-MAX 100. There are a total of thirty-six black and white negatives, a selection of which are included here to supplement the traditional large format photographs. The remainder of the photographs and all of the survey control data are filed with the field records for this structure. Note that these photographs are made from 2 1/4" x 2 1/4" negatives and are not perspective corrected.
